

Won't you tell me?

M. & L.: W.Schmidder

1.

Tell me baby, tell me, where did I go wrong?
Won't you tell me baby, tell me where did I go wrong?
Girl you set my life on fire, to satisfy your own desire.

2.

Tell me honey, why you left me all alone?
Won't you tell me honey, why you left me on my own?
Sweetheart you have locked your heart, don't you see,
that mine will fall apart?

Chorus:

Where's my place to hide – where all the tears I cried,
flown into the sand and dried – won't you tell me?

3.

Tell me sugar, did you have to treat me this way?
Won't you tell me sugar, why did you treat me this way?
Baby can't you see my mess? Good night, good bye
and kiss my ass!

Chorus:

Where's my place to hide – where all the tears I cried,
flown into the sand and dried – won't you tell me?
Where is my place to hide – where the eagles learned to fly,
Without anger, without lies – won't you tell me, won't you tell me

4.

Tell me baby, why do I have to sing this song?
Won't you tell me baby, are you the reason for this song?
Where are you, my honeybee? No one's here to shake my tree.

Chorus:

Where's my place to hide...
